

Calling all Superintendents! Are you a leader looking to drive change, innovation, and growth in your district? Then we have a FREE opportunity for you!

We created this institute to discuss change management, organizational design, and leadership principles based on the best selling book, [The NEW School Rules: 6 Vital Practices for Thriving and Responsive Schools](#). Through this series leaders will learn about global trends in organizational design theory and the six rules for making their teams more effective and responsive (Planning, Teaming, Managing Roles, Decision-Making, Sharing Information, and The Learning Organization). [Register here for this six workshop series!](#)

By the end of this cohort Superintendents will design and lead more responsive, thriving teams through the use of the six NSR rules. Through these workshops and coaching leaders will be able to:

- Build knowledge of organizational design theory, change management theory, and the six NEW School rules (NSR)
- Identify areas that their district and teams need support with, in order to be more effective and responsive
- Complete self-assessments, readings, reflections, experiments, and professional development workouts to deeply understand and practice each rule
- Implement tenets of NSR within their own teams to make lasting change
- We believe that these efforts provide a return on investment immediately--and potentially greater returns in the long term for supporting student-focused learning systems

[Come learn and collaborate](#) with leaders from across the Arkansas who are thinking about the future design of districts and education.

Dates and time will be as follows below. You will receive a calendar invite once you sign up for the series. If you have any questions, please contact [jill@edelements.com](mailto:jill@edelements.com).

8:00 - 10:30am CST on:

- March 11th
- March 18th
- March 25th
- April 1st
- April 8th
